A. S. R. Naik, (IAS)
District Collector,
Chairman DLCC/DLRC,
JALNA.

I am very pleased to present the Annual Credit Plan of Jalna District for the financial year 2014-15 prepared by the Lead Bank, Bank of Maharashtra, Jalna District, as per the Potential Link Plan prepared by NABARD, all Banks, Govt Agencies, and all Corporations, as per RBI Guidelines on Service Area Plan.

The District Credit Plan is prepared keeping in view the goal of faster, sustainable and more inclusive growth of Jalna district. The major focus of Annual Credit Plan is to improve the Human Development Index (which is just 0.27 and we rank at 33 out of 35 districts in Maharashtra) and per capita income of the Jalna.

District Credit plan has been prepared in tune with the PLP of the district prepared by NABARD. The credit provisions made in this plan have been arrived at after careful consideration of the potential available under various activities and the requirement of districts in all sectors of economy. The plans have been finalized in the DLCC meetings held during last quarter of 2013-14

There is need for increased coordination among all stake holders in implementing and achieving goals set by the realistic credit plan, after taking into account the available potentials. Initiatives of GOI, State Government, RBI, NABARD, and active participation of the agencies in the district and block level, are also required. Hence it is decided in the DLCC meetings the need of opening of the additional outlets of the banking. As per the overall survey we expect the addition of around 20-25 bank branches in entire district.

The planed credit for Jalna District is of Rs. 1883.53 crores to Priority Sector including various Programmes of Govt. of India and Govt. of Maharashtra. Jalna District has Agriculture as predominant activity, hence the major share of plan provision of Rs. 1237.09 Crores (65.68%) is allocated to agriculture and allied activities. Last year this figure was 987.60 crores i.e. increase of 249.49 crores over last year. The Non-Farm sector and Other Priority sectors have also been given due weightage. NFS allocation is Rs. 266.37 crores, it shows rise of 25.75% over last year and 3.63% of total priority plan. It will help to implement MSME scheme in long way. For retail and small business and to self employed persons, the credit allocation has been made to the tune of Rs 380.07 crores i.e. (8.05%).

We have achieved of 87.00% ACP of 2013-14 upto December 2013. Banks are also doing good work in the field of social justice and upliftment of weaker section in the society, and SC/ST, Women, minority community are getting due share adequately. We need to enhance our efforts to reach the downtrodden people and beneficiaries under different government sponsored schemes, so that the goal of inclusive and sustainable development is achieved in letter and spirit. I appeal all the banks in the district to continue the same, in right spirit and same zeal. On the background of the good performance in past, I am sure that Bankers will give better performance during 2014-15.

For implementation of this District Credit Plan, innovative strategy may be adopted by all the banks and Govt. Departments. All Corporations have its own responsibility in implementation of Govt. Sponsored schemes. Corrective steps may be taken to avoid bad experiences of the past. From this year the selection made scheme was successfully implemented in the district. I am pleased to inform you that, the Jalna district is pilot in the implementation of the selection process; however the Banks need to redouble their efforts in timely and adequate finance to the beneficiaries.

It is observed that, the performance under Non Farm Sector especially under MSME needs improved attention from all Bankers. The main hurdle of not receiving the good trained cliental for the MSME finance is now taken care by the districts. Entrepreneurship Development mission implemented in the District for the first time.

I would like to mention that the Lead Bank has maintained very good co-ordination with all the Bankers as well as Govt. officers and it will be continued in future.

I am sure that, Bank of Maharashtra as a Lead Bank will continue to co-ordinate their efforts effectively for achieving the desired goals and truly lead by example.

With best wishes.

REVIEW OF PERFORMANCE

For effective and successful planning, periodical review of the progress made is essential. An analytical review of past performance is a guiding step in the preparation of Annual Credit Plan. Quarterly review of achievements is taken in DLCC meeting under chairmanship of Hon'ble District Collector. Besides, it is also discussed in BLBC meetings and also on other forums. Keeping the developmental focus guidance is given with the current requirements and if necessary, corrective measures are also suggested. Timely review helps us in-

1. To find out credit absorption capacity, as well as credit disbursement mechanism.
2. To identify various shortcomings and difficulties faced in the process of implementation.
3. To initiate appropriate corrective measures for positive results.

Thus proper review is a stepping stone to derive maximum benefits from resources set forth for deployment in different sectors of the economy.

A detailed review of performance under credit plan is taken on following line.

1. Overall performance under Annual Credit Plan 2013-14.
2. Sectorwise Achievements.
3. Activitywise Achievements.

DISTRICT CREDIT PLAN 2013-14

LEAD BANK SCHEME

The Lead Bank scheme introduced by Reserve Bank of India (RBI) since 1969 represents a major step in involving various credit institutions especially commercial banks, to become instruments of economic progress and social change to function more as 'leaders in development' and 'instrument of national policy' than as dealers in money. This has been done by entrusting concerned banks with the responsibility of locating growth centers for branch expansion, assessing deposit potential, identifying credit gaps and evolving a co-ordinated programme of credit deployment for each district. The lead bank scheme thus in this sense can be regarded as a part of institutional support for regional credit planning through collaborative approach with the idea of decentralization.

GENESIS OF THE LEAD BANK SCHEME (LBS)

The concept of LBS emerged from the 'Area Approach' to evolve plans and programmes of banking development recommended by the Gadgil Study Group on "Organisational Framework for implementation of Social Objectives" set up by the National Credit Council in 1968. The Study Group, in its Report in 1969 brought out that sufficient attention had not been paid by the commercial banks to the banking needs of the rural areas in general and backward areas in particular. The Study Group, therefore, recommended that depending upon the area of operation and location, commercial banks should be assigned particular districts in an area where they should act as pace setters, providing integrated banking facilities and in this way all the districts in the country should be covered. The group suggested that district should be the unit in an area approach because district was the main administrative unit and it was in relation to district that most statistical and other statistical and other data were available. A Bankers Committee headed by Shri F. K. P. Nariman examined these recommendations. The concept of "area approach" was accepted. The committee recommended that specific district be allotted to certain banks to play the lead role in surveying the potential for banking development, extending branch banking and expanding credit facilities. On the basis of the above recommendations both Gadgil Study Group and the Bankers committee, RBI evolved the LBS towards the end of 1969.

THE MAIN OBJECTIVE OF THE SCHEME IS OUTLINED BY RBI AS UNDER

The Lead Bank is expected to assume the major role in the development of banking and credit in allocated district. At the same time, there is clearly no intention that the lead bank should have a monopoly of banking business in a district. The bank assigned the lead role is thus expected to act as the consortium lead and after identifying, through survey, areas requiring branch expansion and areas suffering from credit gaps, it should involve the co-operation of all banks and other financial institutions operating in the district for opening branches as well as for meeting credit needs.

ALLOTMENT OF DISTRICTS

To enable the banks to assume the role of leadership in an effective and systematic manner, all the districts in the country except the metropolitan cities of Greater Mumbai, Kolkata and Chennai were allotted among public sector banks and a few private sector banks (since nationalized). The main criteria in allotment of District was the size of the Bank, its resources, its regional orientation, geographic contiguity resulting in a cluster of lead districts for administrative reasons. The desirability for each State to have more than one state was also kept in view. The RBI allots this responsibility to banks whenever new districts are created.

PRIME TASKS UNDER THE SCHEME

The role of the Lead Bank has been, slowly, crystallizing over the past decade. The major functions of the Lead Bank as they have emerged can be summarized as under.

- i) Conduct impressionistic surveys to estimate credit gap and identify growth centers. The Lead Banks did conduct these surveys as per RBI guidelines and brought out district-wise reports. These reports covered, amongst other things, aspects like resources and potential in the district, banking needs of existing industrial, commercial and other establishments, infrastructure facilities, the backward & existing agricultural / industrial product and feasibility of linking of credit with marketing, recruitment and training of staff for offering advice to small farmers and borrowers in the priority sectors, maintaining contacts / liaison with Government / other agencies etc. This was followed by continuing survey of banking potential for deposit mobilization and credit extension.
- ii) Formation of District Consultative Committee for the purpose of co-ordinating the efforts of district level financial agencies and government authorities, departments and to act as Convenor.
- iii) Identification of centers for branch expansion by various participating credit institutions.
- iv) Formulation of bankable schemes and credit plans for the district, allocation of responsibility of financing District Credit Plans (DCPs) amongst the credit institutions on the basis of their existing and expected branch network and organizational set up. For monitoring the focus of lead bank scheme has been on the formulation of District Credit Plans (DCPs). Annual achieve the national objective of reaching the priority sector targets specially the weaker sections within the priority sector.

SERVICE AREA APPROACH : A SYSTEMATIC EFFORTS FOR PLANNED DEVELOPMENT

With an objective to strengthen the credit delivery system, the concept of Service Area approach has been introduced in our country in April 1989. It embodies credit planning at micro level on the basis of potential assessment and needs of the specific area and co-ordination amongst credit institutions and other development agencies providing no-credit inputs. It, therefore, ensures realistic planning, proper implementation and effective monitoring of credit programmes with an ultimate aim to increase the production, productivity and income levels of rural population and improve their standard of living.

5	Non Priority	110.00	-	93.58
	Total Plan	1632.82	1816.61	1977.11

The major variation in the priority sector plan for the year 2014-15 is due to following RBI guidelines:

- √ Due to weak position of Jalna District Central Co-op. bank the entire credit allocation of around Rs 200 Cr is shifted to all other Commercial & Gramin Banks.
- √ As per the recent guidelines of RBI regarding relaxation of the service area norms, the allocation of villages amongst the rural and semi-urban branches of Banks shall not be applicable for lending, except under Govt. Sponsored Schemes.
- √ Other Priority Sector for the Year 2014-15 has been enhanced due to credit linkage to SHGs.

- √ RBI has instructed to all the Private Sector banks to participate in the Lead Bank Scheme as also all other Govt. Sponsored Schemes.
- √ Government thrust on credit flow to agriculture and thereby improving the growth rate in agriculture.
- √ Linking Self Help Groups for cost effective delivery and monitoring of micro credit.
- √ Issuance of Kisan Credit Cards (KCCs) to all the farmers for availing production credit.
- √ Emphasis on financing small & marginal farmers and lending to village artisans, Swarogaries and other activities for employment generation.
- √ Govt. thrust on providing housing shelter to middle class, low-income group as one of the necessities of life.
- √ Fianancing to SME Sector.

The Bankwise and sectorwise Credit Plan & Blockwise Credit Plan for the year 2014-15 are given separately in the enclosed annexure.

The Lead Bank has received wholehearted co-operation from all the Bankers and Govt. Agencies in implementation of the plan during the financial year 2013-14 and hope to get the same in the current year too.
